

System Requirements

SERVER

Processor : Intel Xeon E5 Family Processor 3.XX Ghz or faster

RAM : Minimum 32 GB

Storage : SSD (Solid State Hard Disk)
Minimum 100 GB free at the time of installation

Display Resolution : Minimum Colour SVGA with 1280x960 pixels and DPI Setting as Normal size (100 DPI)

Operating System :

- Microsoft Windows Server 2012 R2 (64 bit) or 2016 or 2019 Standard Edition (64 bit) with latest service pack

Microsoft SQL Standard Server 2016 & 2017

- if database size exceeds 10 GB or
- if your Server has more than 4 cores

Please visit www.microsoft.com for up to date information on Microsoft product Licensing

CLIENT

Processor : Intel Core i5 or i7 E5 Family Processor 3.XX GHz or faster

RAM : Recommended 16 GB

Storage : SSD (Solid State Hard Disk)

Display Resolution : Minimum Colour SVGA with 1280x960 pixels and DPI Setting as Normal size (100 DPI)

Operating System :

- Microsoft Windows 8.1 or
- Windows 10 (64 bit) with latest service pack

REMOTE ACCESS

One Static IP for accessing Remote Server

Microsoft .Net Framework features with all sub components

Bandwidth : Minimum 20 Mbps
(Recommended 100 Mbps or higher)

Internet Information Services (IIS) Version 7.5 or higher

Windows Process Activation Service with all sub components

Latency < 50 ms

NETWORK

LAN Speed : Gigabit (1GB) Wired / Wireless Network

Communication Protocol : TCP/IP

Following Network Ports must be open :

- 21 (FTP)
- 443 (TCP)
- 8081 (TCP)
- 587 (SMTP)
- 80 (HTTP)
- 808 (TCP)
- 8082 (TCP)
- 993 (IMAP)
- 83 (TCP)
- 1947 (TCP)
- 465 (SMTP)

UPS

Online for Server

Online / Offline for Client PCs
